Advanced Project Management

Advanced Project Management is a three-day, instructor-led, simulation-based, training class designed for experienced project management practitioners who wish to apply and enhance their fundamental project/program management skills.

Subject Matter

The course is designed to re-introduce essential project management processes followed by hands-on application of skills using both a course case study and a project simulation tool. Participants will take a realistic project from inception (initiation) through completion (closure). Teams will develop key project artifacts and deliverables including:

- Project Charter
- Stakeholder Importance Matrix
- Work Breakdown Structure (WBS)
- Activity Breakdown Structure (ABS)
- Project Timeline
- Project Budget
- Resource Plan
- Communications Plan
- Risk Management Plan
- Status Report(s)
- Change Management Plan
- Final Project Report

The instructor will serve as the Project Sponsor; therefore, all teams will present their artifacts in order to seek approval to continue with the project.

Recommended Attendees

Advanced Project Management will benefit experienced project/program managers, team members, portfolio leaders, and executives who lead project organizations. This course benefits Project management practitioners from all industries.

Participants Will Receive

- Comprehensive Student Guide
- Workbook Including Course Case Study and Templates
- Simulation Software Program
- Advanced Project Management Templates in Electronic Format
- Certificate of Participation
- 21 PDUs / 2.1 CEUs

What Previous Attendees Have Said:

“Very good instructor. Dynamic presentation with real-world examples/illustrations.”
“The course was well-planned and delivered. It met all of my expectations.”
“Excellent course! I enjoyed the flow and material.” the class.

All Tanden LLC instructors are certified Project Management Professionals (PMP®) with many years of hands-on project leadership experience in a multitude of industries.
